Please return your nametag, thanks!

Getting our own house in order...

- Reorganization of City Hall departments aimed at delivering services in a more effective, logical, and direct manner. The new structure has created clear lines of authority, responsibility, and accountability.
- New leadership. In the last two years, not only a new city manager but also many new Department heads, managers, and other mid-level staff with years if not decades of experience in their fields. One mission: Improve customer service.
- Strengthened and modernized our Code of Ethics.
- Reform of the Finance Department, adding staff, adopting policies and strategies aimed at making sure precious tax revenue works FOR the City. Thus, for example, we have short-term investment policy that – rather than cost us money – actually MADE taxpayers over \$100,000 just in its first four months.
- Hiring of a full-time communications director to keep residents more fully informed of things that are going on.
- Revamped Neighborhood Services Department to be more efficient about using code enforcement to reduce health and safety threats in neighborhoods. Adopted neighborhood grant program.
- Strategic planning in our Economic Development Department:
 - Citywide economic action plan to spread the energy to entire City.
 - Zoning code rewrite to make it more flexible, less time-consuming and expensive, better reflect our historic character.
 - Studying traffic changes on Scott and Greenup to protect neighborhood and encourage neighborhood biz development.
 - The RIPPLE EFFECT to focus City Hall resources on a local neighborhood biz district. (Lewisburg).
 - Developing downtown design standards to bring order and consistency to the numerous elements that determine both how its downtown looks and functions.
 - Doubled money for small businesses in our façade and first-year rent incentive programs (now up to \$150,000) and expanded eligibility to the entire City.
 - Created citizen task force to begin process of deciding the role and function of a new City Hall, should we decide to build one to replace the temporary and ill-equipped home we rent now.
 - Hired Cooper Carry to create conceptual master plan for the 23-acre IRS site and help us obtain development control from the federal government.
 - Passed new policy on IRBs to make sure taxpayers get a return on investment.

The Commission also adopted a number of new policies and procedures to strengthen and institutionalize the city's commission operation and administrative infrastructure.

LATONIA COMMUNITY COUNCIL

April 1, 2019

Dear Fellow Latonians,

Latonia Community Council is in the planning process for our annual Plant Ritte's Corner project. This letter is soliciting your financial assistance so that we can accomplish this project.

Ritte's corner and the surrounding blocks are known as our Latonia Uptown and many folks pass through here on a daily basis, it is home to many businesses and events. We would like your help as we beautify the planters and fountain.

We have been able to continue this project with your help. We anticipate this project to cost anywhere between \$1,500.00 - \$2000.00. That will cover plants, new soil, fertilizer, & paint. We will be planting the weekends of May 18th & May 25th.

DONATION LEVELS *

\$500.00- (2 NEEDED)- TROPICAL OASIS LEVEL

\$300.00- (2 NEEDED)- PRETTY PERENNIALS LEVEL

\$150.00 (2 NEEDED)- BOUNTIFUL BEAUTIES LEVEL

\$50.00- FRIENDS OF LATONIA COMMUNITY COUNCIL, LATONIA UPTOWN

Thank you for your consideration in donating to help make this project possible. We look forward to accomplishing this goal and maintaining a beautiful bunch of planters!

Checks can be made payable to:

LATONIA COMMUNITY COUNCIL, P.O. BOX 15362, COVINGTON, KY 41015.

Sincerely,

Leigh Drake, LCC President

** Presenter expressed that any and all donations are welcome and needed, and that these amounts are just suggestions!*

- Mats & equipment provided
- Private yoga available
- Extremely friendly, down to earth staff trying to make a difference in the community

NEW Classes Coming!

Starting the week of May 20th

Mon 6pm, Wed 6pm, Sat 830am: **Peaceful Current with Sara**

In this low-moderate class, you can find yourself flowing through gentle to challenging postures with a focus on the breath, and an emphasis on alignment. Offering periods of stillness, silence, and fluid movement, you have the opportunity to truly tune in to the body and mind. This class offers an opportunity to have fun with your practice! It allows for modifications, is a mixed level class, and is well-suited to newer students or for those who desire to slow down and find concentration in their practice.

Wed 730p: **Mindful Movement with Hope**

This class will begin with a warming and heart-opening yang practice allowing prana, or energy, to begin flowing in the body. The second half of the class will focus on yin poses held longer to stretch the connective tissues helping us to relax into the deepest layers of the body. You will be sure to leave feeling calm, peaceful and balanced after this healing practice.

Thur 6pm, Sun 10am: **Serene Stretching 90 min w/ Aimee**

Static postures are held using a variety of props (provided) to ensure comfort. Cues are given to increase body awareness, and guided breathing exercises allow for deep connection to one's breath. The 'sleeping postures' are held for several minutes at a time, allowing the body to open and release naturally. Patience is key in yin yoga. You may find this meditative practice deeply relaxing, and even healing if your heart and mind allow.

Fri 12pm: **Serene Stretching 60 min with Hope**

A shorter version of our restorative stretching class in yin yoga style. This is a great way to shake off a tough week and ease into the weekend.

Fri 7pm: **Happy Hour with Hope**

This is a Hatha Vinyasa Flow class for yogis looking for a little extra challenge. While beginners are still welcome, this is an opportunity to receive instruction and helpful tips for a more advanced practice. Each pose will be broken down into its components. The class starts with sun salutations, then standing postures, balancing poses, and inversions. We wrap it up with a seated guided meditation. Feel free to come with requests! What pose have you been struggling with?
